HEALTH MANAGER 8-9TH JUNE

# Challenges

- NHS Choice Programme -- Challenges traditional patient flows
- Independent Sector -- Market forces
- Pressure on public finances -- Low and declining levels of productivity
- World class commissioning -- Innovative patterns of healthcare

# Effective planning within a realistic assessment of funding

## Primary Care Trusts

- Re design services to eliminate waste and duplication
- Move more care to the community
- Closer collaboration with local authorities
- Application of lean principles

## Providers

- Innovative plans to improve quality and safety matched with gains in efficiency
- Application of lean principles
